

SEGO BUDDIES PROGRAM

Be a SEGO Buddy!

Your need to receive, and perhaps give, coping support while you go through cancer treatment is important to us. Patients have told us that only someone who has had cancer can understand the day-to-day challenges that come with being a cancer patient.

To meet our patients' need for support we have established a coping support program. It is called SEGO Buddies. Buddy teams consist of patients who have been matched with each other based on information each supplied to us. You can have several Buddies if you request more than one.

We hope that patients who are SEGO Buddies will provide support to each other through phone calls, email, or personal visits. The relationship can be whatever both Buddies need it to be. We encourage SEGO Buddies to find creative ways to be mutually supportive.

Our staff, Janet Kempe, SEGO Buddies Program Coordinator, and Anita Norris, Social Services Coordinator, will be available to provide guidance and assistance. Please let them know what you need.

Use the attached Buddy Profile Sheet to become a SEGO Buddy. The information you provide will be used to match you with someone with similar interests and needs. Either give the application to a staff member while you are at the office, or mail it to the address below.

Janet Kempe, SEGO Buddies Coordinator
